

NOTES

While the principal aim of the Monthly Statistical Summary is to provide the latest available information it has been thought desirable to extend the time series in most tables to allow comparisons to be made between the latest and earlier periods.

It is apparent that there are advantages in presentation of information according to broad subject groupings. In this issue a re-arrangement has therefore been made, the items included being grouped within related subject divisions.

Some tables which previously appeared in this publication have been omitted. These tables and the titles of the publications where the information may be obtained are as follows :-

<u>Table</u>	<u>Source of Information</u>
Bankruptcy	Statistical Register of Western Australia, Parts VIII, IX and X - Social Statistics
Sales Tax	Statistical Register of Western Australia, Parts II and III - Finance Statistics
Crown Land Transactions	Quarterly Statistical Abstract

Tables included for the first time in the Monthly Statistical Summary are as follows :-

Population and Vital Statistics

Oversea Arrivals and Departures

Employment and Unemployment

Employment Service: Registered Unemployment and Job Vacancies

Wages and Prices

Average Weekly Earnings and Minimum Weekly Wage Rates

Average Retail Prices of Food and Grocery Items

Building and Productive Activity

Wool Sales and Prices

Finance

State Consolidated Revenue Fund: Revenue and Expenditure (classified according to source or Department, respectively)

Life Insurance

Trade

Value of Oversea and Interstate Exports; Selected Commodities

Value of Oversea and Interstate Imports; Selected Commodities

Transport and Communication

Cargo Discharged and Shipped at Western Australian Ports

Perth Airport: Aircraft Movements, Passengers and Freight

Post Office Activity

Many of the statistics appearing in this Summary are preliminary and may be amended in subsequent issues. Reference should therefore always be made to the latest available issue.

Several tables contain figures which have been rounded (to thousands or, in some cases, millions), without making those adjustments which would be needed to make the rounded figures add to the rounded total. It is for this reason that figures do not always add to the totals shown in the tables.

Additional information may be obtained, if required, for many of the series published in this Summary by contacting the appropriate section of this Office. (Telephone 21-8041).

(a) Based on employment and salaries and wages recorded on Pay-roll Tax returns and from other direct collections and estimates. Male units represent total male employment plus a proportion of female employment based on the approximate ratio of female to male earnings. Includes overtime and over-award and bonus payments. (b) Weighted average of award rates for a normal week's work (excluding overtime). The components of the total wage represent weighted averages of Commonwealth and State basic wages including district parities and allowances, and margins and prescribed loadings. Annual figures, end of June; quarterly figures, end of quarter. Excludes rural. (c) Not yet available.

(a) Most cargoes are recorded in terms of the ton weight of 2,240 lb. but some cargo, consisting mainly of bulky commodities, is recorded on the basis of the ton measurement, a unit equivalent to 40 cubic feet of space. Statistics are compiled accordingly in terms of "tons weight" or "tons measurement". In order to provide a ready comparison, as in this table, of the volume of cargo discharged or shipped the amounts recorded in the two categories have been aggregated.
